The Mammoth Cave.

*** * We groped about for many hours in this wonderful place. I never saw anything like it. The freaks of nature displayed here are very strange, and strike the beholder with awe. But the air in some parts of the cave is close and stifling, and when we came out I found myself saddled with a terrible fever, which entirely prostrated me. The physician had never seen a case like it before, and no remedy he prescribed seemed to do the least good. My life was despaired of. Mrs. Wilson, with whom I was residing, had in the house a bottle of Plantation BITTERS, and she insisted I should try it, for she said she knew it to be a certain cure for all cases of fever, debility, ague, dyspepsis, &c. I had but little faith, but finally consented to try it as a last resort. In less than three hours after the first dose my fever left me; in two days I was sitting up, and before Saturday night I was as well as ever. I tell you all this that you may know how to act in any case of fever, or any similar disease. I firmly believe the Plantation Bitters saved my life. * * * In my next I will tell you about the cave in detail. A. J. P A. J. P
